

We have the solution.....

BEHAVIORAL LEADERSHIP ACADEMY TRAINING

Presented by: Ervin Educational Consulting
Hosted by: Perrysburg Schools

Two Sessions Offered: June 12th-14th OR July 24th -July 26th

The **Behavioral Leadership Academy Training** provides staff with comprehensive procedures and strategies that **can be used immediately** and cumulatively to create a calm, loving, inclusive, equitable environment where ALL students can learn, be engaged, feel safe, and love being in the classroom!

Additionally, educators will be provided effective strategies that can be easily implemented to support students in their class who need additional instructions and support with the development of their social-emotional skills, self-regulation skills, and adaptive behavior skills.

The training provides staff skills to prevent, guide, and effectively respond to negative behaviors with every student.

All attendees will learn to.....

- Use specific strategies and procedures for building relationships and sharing control to prevent a vast majority of negative behaviors while creating a calm, safe environment;
- Avoid demands and threats by replacing them with Gentle Guidance Interventions; and
- Use Procedural and Delayed Learning Opportunities to teach positive behaviors on your terms without anger or punishment

Training Focus: Day #1:

Staff will learn **relationship building strategies**. For example, setting up a classroom that creates a collaborative and safe learning environment for all students, setting up the classroom as a clubhouse with teams, greeting each student with an ESPN greeting, supporting students in the development of student-created class rules, etc.

Training Focus: Day # 2:

Staff will learn **control sharing strategies** for sharing control on the adult's terms rather than on the student's terms.

Training Focus: Day #3:

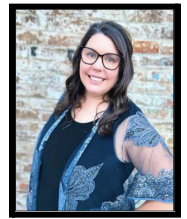

Staff will learn **strategies** that they can begin to **implement immediately**. For example, implementing the argument shield, strategic noticing; calm signal, preventive movement, 42 gentle guidance interventions, delayed learning opportunities.

Presenters:

June:
Scott Ervin
