

EUREKA ENGINEERING

Grade 3rd-5th

Eureka introduces students to the core skills of robotics and other STEM areas through engaging, hands-on learning opportunities. Student groups will work with Lego Mindstorm kits, which include both programming and mechanical components. The small groups will be mentored by experienced and passionate students from both high school and collegiate level robotics teams. For those interested in getting involved in FIRST Robotics, Eureka serves as a marvelous transition into a *FIRST Lego League team!*
