

August 14, 2025

To our tennis fans and families:

I am excited to write to you today to share part of our Magnet Mustangs Tennis Team's story and ask you to help us build on our success. The Magnet Mustangs Tennis Program has been growing by leaps and bounds since 1980, and I am excited to report that in spring 2025 Magnet High had 44 tennis players on Girls Varsity (12 players), Boys Varsity (12 players), Girls Junior Varsity (10 players), and Boys Junior Varsity (10 players). We have the largest tennis program in our district in the state, and every year we have more and more athletes excited to begin or continue their tennis journeys.

The 2025 season was a great success for all tennis teams; we were able to schedule full seasons for both the Varsity and JV teams. The Girls Varsity Team went undefeated in their district season! Girls Varsity had a winning season with a 13-0 total match record in Division II District I regular-season matches. Boys Varsity finished with a winning record of 7-5 in Division II District I regular-season matches. Our number one Girl's singles player won first place at the District II regional tournament, and the Girls Varsity team finished as runner-up in District II. Overall, in 2025 we qualified 9 varsity team members for state. We also had two senior student-athletes who were awarded Composite All-Academic team membership, with a perfect grade point average of 4.0 for all four years of high school. We had 8 senior student-athletes who were awarded Class All-Academic team, with a grade point average of 3.5 or higher for all four years of high school, while playing varsity tennis.

The Magnet Tennis program is committed to a year-round tennis program that begins in September and continues through late April/early May. In the fall we offer free lessons to beginner tennis players with no experience required. Our goal is to foster access to tennis for all kids, regardless of their means. We offer clinics and practice time to intermediate and advanced tennis players at no cost from September-December.

As a potential stakeholder in the future of Magnet Tennis, we are asking for your support. Our program has many goals for 2025-2026 and the years to come. We are so lucky to be able to host dozens of tennis matches and tournaments at our school's eight hard courts during the year. We have the most courts available at a public school in our area, and as a result host many high school tennis matches at no cost to participating schools. In 2017 the hard courts were surfaced and wind screens were added to most of the surrounding fence. We are expecting the need to resurface the courts in 2027. We have also been adding additional windscreens to replace the wear and tear. In 2024 we worked with Caddo Parish School Board to fund a much-needed drainage project to protect the future of the courts from the effects of erosion. Our future facility needs are: equipment, electricity and water access, bathrooms, and benches/seating.

Tennis is a sport unlike any other—we are dedicated to fostering lifelong tennis players with a program focused on sportsmanship, team spirit, and dedication. To participate in the sponsorship drive, please go to: <https://www.locallevelvents.com/events/details/40090> at LocalLevelEvents.com.

Sincerely,

Karin T. Goebel  
Head Coach, Boys and Girls Tennis
