Early Childhood MTSS

Early Childhood Multi-Tiered System of Supports (MTSS) is an educational framework designed to provide varying levels of support to young children based on their individual needs.

This is a two-part series!

Process development: 12/15/2025 9am - 3pm

Process review: 3/16/2026 9am - 3pm

AM of each day is PD and PM is for work sessions

During the first part of this training, participants will:

- Discover the benefits of MTSS in early childhood education and beyond.
- Learn about the MTSS process developed by Speech-Language Pathology Regional Consultant Jennifer Treadway and her team at the NCOESC.
- Work to adapt or develop an MTSS system unique to each program.

During the second part of the training we will:

- Discuss - what did each district or program develop?
- Compare - what components did each group include?
- Analyze - based on any new information, determine if the plan is solid or needs to be updated.
- Plan - how will implementation look in the 25-26 school year?
