Aligns with the Ohio Department of Education & Workforce's 4 Priorities

- [ ] Literacy
- [x] Learning Acceleration
- [ ] Student Wellness
- [ ] Workforce Readiness

Prepping for the Spring OSTs with
TIDE'S ASSESSMENT AUTHORING SYSTEM

Have you ever felt like you could design a better OST test than the ones your students have to take? With TIDE's Assessment Authoring System, you can! (Just not to replace their own OSTs, unfortunately.)

Using the same system that your students will test on in the spring, TIDE allows you to create your own assessments to gauge your students' understanding. These can range from one question to many - and the results are viewable in the same CRS as your spring results. For short answer and essay questions, answers are graded using the same AI that will grade them in the spring. You can view both the questions and your students' answers in order to understand what they know and what they still need to learn.

Join Regional Data Leads Aimee Mendelsohn and Amy Merrill-Wyatt to learn how this free tool can help you assess your students' learning and progress towards their end-of-year expected benchmarks.
