2026-27 School Year Ukeru

TRAUMA INFORMED CARE

Ukeru® is the only restraint-free program that combines hands-on training, theoretical concepts, practical tools, and specialized equipment to safely manage and diffuse crises.

Ukeru's conceptual framework is straightforward, but also validated by comprehensive trauma research. Customized to fit the unique needs of each organization, Ukeru® offers hands-on participant trainings as well as a "train-the-trainer" series. Training is straightforward and easy to implement, and focuses on what caregivers want to do most: communicate effectively with the individuals they serve and diffuse stressful, escalating behaviors. Each training covers:

- Verbal and nonverbal communication to convert/divert an aggressive individual
- Physical release techniques that keep both client and caregiver safe
- Physical re-direction to avoid injury and self-harm
- Safe Blocking®—the only trauma-informed, restraint-free blocking technique

**To find out more, visit Ukeru's website at:
