Aligns with the Ohio Department of Education & Workforce's 4 Priorities

- ☐ Literacy
- ☐ Learning Acceleration
- ☒ Student Wellness
- ☐ Workforce Readiness

Your students are *doing* math, but are they *talking* about it? Join the Math Language Routines Virtual Workshop Series to increase math discourse in your classroom and shift toward a more student-centered learning environment. Participants of the Math Language Routines Workshop Series will explore how to increase student discourse within math classrooms through the use of Math Language Routines (MLRs), a series of eight strategies developed by the Stanford University UL/SCALE team.
