EMPOWERING STUDENTS THROUGH THE 8 MATH PRACTICES

Bringing Ohio's Mathematics Vision to life with a deep
dive into the standards of mathematical practice.

All K-12 mathematics educators, intervention specialists,
and instructional coaches are invited to join this workshop
to more deeply understand the Standards of Mathematical
Practice - the skills that educators should seek to develop
in their students.

This session will break down each standard of
mathematical practice, and also allow educators to engage
with practice problems and implementation strategies
connecting to their specific grade level/grade band.

MP 1	Make sense of problems and persevere in solving them.	
MP 2	Reason abstractly and quantitatively.	
MP 3	Construct viable arguments and critique the reasoning of others.	
MP 4	Model with mathematics.	
MP 5	Use appropriate tools strategically.	
MP 6	Attend to precision.	
MP 7	Look for and make use of structure.	
MP 8	Look for and express regularity in repeated reasoning.
