2026-27 School Year

Ukeru

REFRESHER

TRAUMA INFORMED CARE

This is a half-day session offered to individuals who have already completed the Ukeru full-day training in a previous school year but would like a refresher on it. If you have not taken the full-day session already, please sign up for one of our full-day sessions instead.

Ukeru's conceptual framework is straightforward, but also validated by comprehensive trauma research. Customized to fit the unique needs of each organization, Ukeru® offers hands-on participant trainings as well as a "train-the-trainer" series. Training is straightforward and easy to implement, and focuses on what caregivers want to do most: communicate effectively with the individuals they serve and diffuse stressful, escalating behaviors. This training **reviews:**

- Verbal and nonverbal communication to convert/divert an aggressive individual
- Physical release techniques that keep both client and caregiver safe
- Physical re-direction to avoid injury and self-harm
- Safe Blocking®—the only trauma-informed, restraint- free blocking technique
