

Rubik's Cube Team Time

Dear Parents and Students,

Welcome to the **Rubik's Cube Team**! Whether your student is a complete beginner who has never solved a cube or an aspiring speedcuber looking to lower their personal best, this club is designed for all skill levels.

Our primary goal is to teach students the step-by-step methods required to successfully solve a standard 3x3 Rubik's Cube. Once the foundational techniques are mastered, we will focus on practicing finger tricks, pattern recognition, and algorithms to increase their speed. Throughout the year, students will have the opportunity to track their times and participate in friendly, low-pressure competitions with their peers.

Club Fee & Payment Details There is a **\$10 fee** to join the team, which covers the purchase of an official team **Speed Cube** for your student.

- **Bring-Your-Own-Cube Policy:** While students are welcome to bring their personal Rubik's Cubes from home to show off or practice with, **all members are still required to pay the \$10 fee**. Using the same standardized speed cube ensures fairness during practice, keeps our step-by-step teaching consistent, and levels the playing field for team competitions. Best of all, students will get to keep this Speed Cube at the end of the year!
- **How to Pay:** ALL Team Time fees must be collected online through Local Level Events. **We cannot collect money directly from students.** Please scan the QR code below to complete the payment.
- **Payment Deadline:** Fall semester fees are due by **Tuesday, September 8th**.

[INSERT QR CODE HERE]

Please complete the online payment and return the permission slip below by September 8th. We are excited to twist, turn, and race to the finish line this year!

Sincerely,
Mr. Robert Gallant, MEd
Benton Intermediate
